

NEMMO 2022 INTERNATIONAL CONGRESS & EXHIBITION

Everything you want to know about Materials for Mobility ... and Beyond !

Join us at NeMMo, the NEW and ANNUAL International Congress dedicated to New Materials for Future Mobility!

Our experts are invited to speak during a Conference on "*How mechanical suppliers have adapted to the evolution of materials and surfaces for E-Mobility*" with Vincent CAULET, Pierre-François CARDEY, Jean-Marc BELOT, CETIM. It's on Thursday the 7th at 9am !

Information on registration and access to the full program available [here](#) !

About NeMMo

This congress will initiate a large debate between specialists from the automotive world and material experts' communities: metallic and plastic raw materials suppliers, tiers-N suppliers, plastics processors and converters, machine and tooling manufacturers, car manufacturers (OEM) & global mobility manufacturers (rail, aeronautics, nautical...), softwares simulation developers, multi-material assembly technologies providers, materials recyclers, academic research laboratories.

These two days of exchanges, meetings and conferences around an exhibition will allows to meet these expectations and imagine the future mobility.

LIEU ET DATE :

NANTES, Cité des Congrès

**DU 06 JUILLET 2022
AU 07 JUILLET 2022**

organisé par SIA and SFIP
