

SELF-SERVICE METROLOGY LABORATORY

A local self-service offer in our metrology laboratories

Your expectations

- You are looking for calibration devices,
- You do not want to stop your control device for more than one day,
- You want to keep your calibration knowledge,
- You need advice from skilled experts

Our solutions

- A self-service calibration laboratory is available on each of our Cetim sites (Nantes, Saint-Etienne, Senlis)
- Our team is entirely dedicated to your projects

Your benefits

- A high quality calibration on high-precision devices,
- A flexible and quick solution with no need of investment,
- You keep your own skills and your technicians have access to Cetim experts network.
